

*Suspension 11 October*

10 October 1968

25X1A9a

[REDACTED]

I would like to have a full report on the Alarm System. What are the problems? What remains to be done? Why hasn't it been done? What action is necessary to get it done?

I would also like to have a complete report on the water problem. What has been done? What remains to be done? Why hasn't it been done? What action is needed to get it done?
